

Criteria for Recognition

May 2017

Foreword

1. The Education (Northern Ireland) Order 1998 states that The Council for Curriculum, Examinations and Assessment (CCEA) shall have the following regulatory powers:
 - with the approval of the Department of Education develop and publish criteria for the accreditation of relevant external qualifications; and accredit, where they meet such criteria, any such qualifications submitted for accreditation.¹
 - seek to ensure that the standards of examinations and assessments conducted by bodies or authorities in Northern Ireland are recognised as equivalent to the standards of examinations and assessments conducted by bodies or authorities exercising similar functions elsewhere in the United Kingdom. In carrying out this function the Council shall, as far as is relevant, have regard to the: requirements of industry, commerce and the professions; and of persons with special learning needs.²
2. In May 2016, the arrangements for regulation changed in Northern Ireland. CCEA Regulation is now responsible for the accreditation and quality assurance of all qualifications offered in Northern Ireland, including GCSE, GCE and Professional and Technical (Vocational) qualifications. Regulatory work includes the recognition and monitoring of Awarding Organisations, ensuring that they have the capability to deliver the qualifications in their portfolio and that they meet the CCEA General Conditions of Recognition.
3. All Awarding Organisations wishing to offer qualifications in Northern Ireland have to meet CCEA Criteria for Recognition and General Conditions of Recognition.

The May 2017 version of this document replaces all previous versions of the CCEA Criteria for Recognition.

Defined Terms

In these criteria, the following words shall have the meaning given to them below (and cognate expressions should be construed accordingly):

Applicant	The person who has applied to the regulators ³ to be recognised as an awarding organisation in accordance with section 132 of The Apprenticeships, Skills, Children and Learning Act 2009.
Centre	An organisation undertaking the delivery of an assessment (and potentially other activities) to Learners on behalf of an awarding organisation. Centres are typically educational institutions, training providers, or employers.
Comparable	<p>Assessment outcomes that are comparable in standards between assessments within a qualification, between similar qualifications, with other awarding organisations, and over time. Where an assessment has equivalent forms then it is important to ensure comparability of outcomes. There are two reasons for this:</p> <p>(A) To reach fair comparisons about the attainment of Learners: It is impossible to produce different forms with exactly the same content and statistical specifications (such as the level of difficulty or demand on the Learner). Therefore, a requirement to ensure comparability of outcomes makes sure the level of difficulty or demand of the test forms is taken into account when setting standards so that Learners taking the different forms can be compared fairly; and</p> <p>(B) To ensure that the outcomes can be used as a measure of standards: Outcomes from different forms of the same test must be comparable if they are to be used to measure standards over time. Both expert judgements and statistical procedures such as test equating can be used to ensure comparability of outcomes from different forms of the same test. It is, however, important to ensure that assessments are not so similar that they become predictable, as this would be a threat to the qualification being Valid.</p>
Competition Law	Current legislation in Northern Ireland which has an equivalent purpose and effect to The Competition Act 1998 in England.
Conditions of Recognition	All conditions to which an Applicant's recognition is to be subject (including other conditions to be imposed under section 132(3)(d) of The Apprenticeships, Skills, Children and Learning Act 2009.
Conflict of Interest	<p>A Conflict of Interest exists in relation to an Applicant where:</p> <p>(A) its interests in any activity undertaken by it, on its behalf, or by a member of its Group have the potential to lead it to</p>

act contrary to its interests in the development, delivery and award of qualifications in accordance with its Conditions of Recognition;

- (B) a person who is connected to the development, delivery or award of qualifications by the Applicant has interests in any other activity which have the potential to lead that person to act contrary to his or her interests in that development, delivery or award in accordance with the Applicant's Conditions of Recognition; or
- (C) an informed and reasonable observer would conclude that either of these situations was the case.

Data Protection Law	Current legislation in Northern Ireland which has an equivalent purpose and effect to The Data Protection Act 1998 in England.
Equalities Law	Current legislation in Northern Ireland with respect to Equalities Law.
Governing Body	Where the awarding organisation is a limited company, the board of directors of the awarding organisation. Where the awarding organisation is not a limited company, a person or group of people having the equivalent status within the organisational structure of the awarding organisation.
Group	Where the Applicant is a limited company, a group made up of any company which is a holding company of the Applicant, a subsidiary of the Applicant or a subsidiary of a holding company of the Applicant. Where the Applicant is not a limited company, a person or group of people having the equivalent status.
Learner	A person who is registered to take a qualification and to be assessed as part of that qualification.
Manageable	Manageability relates to the feasibility of carrying out particular assessment processes. A Manageable assessment process is one which places reasonable demands on Centres and Learners. The evaluation of the reasonableness of the demands will be based on the scale of the assessment process on the participants, balanced by the usefulness of the outcomes. As with the other requirements (the qualification being Valid, Reliable, Comparable and Minimising Bias), judgements about the qualification being Manageable must be balanced with considerations around the other requirements.
Minimise Bias	Minimising Bias is about ensuring that an assessment does not produce unreasonably adverse outcomes for Learners who share a common attribute. The Minimisation of Bias is related to fairness to all Learners and is also closely related to statutory equality duties.
the Order	The Education (Northern Ireland) Order 1998

Reliable	Reliability is about consistency and so concerns the extent to which the various stages in the assessment process generate outcomes which would be replicated were the assessment repeated. A qualification must be Reliable as a necessary condition of the qualification being Valid, as it is not possible to demonstrate the Validity of an assessment process which is not Reliable. The Reliability of an assessment is affected by a range of factors such as the sampling of assessment tasks and inconsistency in marking by human assessors.
Register	The register published and maintained by the regulators in accordance with section 148 of The Apprenticeships, Skills, Children and Learning Act 2009.
Senior Officer	A director or senior executive officer of the Applicant or, where the Applicant is not a limited company, a person holding a position of equivalent status within the organisational structure of the Applicant.
Valid	Where evidence and theory support the interpretation that the assessment outcomes meet their intended uses. The evaluation of Validity involves the development of a clear argument to support the proposed interpretation of the outcomes and as a consequence the intended uses of the assessment. The Validity argument should be built on statements of the proposed interpretation and supporting evidence collected from all stages of the assessment process.
