

## **Maghera Targets**

### **Northern Ireland Curriculum**

#### **Pupils' Personal Learning Targets**

##### **Dympna Devlin, St Patrick's College, Maghera**

DYMPNA DEVLIN: Our emphasis this year on Assessment for Learning, which is peer and self-assessment and self-evaluation. It is giving us the opportunity to develop the pupils' ability to set personalized learning targets. We are developing their skills to self-evaluate, and as part of that then, they will set targets for improving their learning.

Also, pupils do set targets as part of their Careers and Employability programme in Year 10, and they prepare personalized statements. The progress file materials have been used by the Vice Principal of Curriculum and the Director of Learning for Learning for Life and Work when preparing the Learning for Life and Work materials for PD, Employability, and Citizenship.
