

# Circular S/IF/40/19

June 2019

---

**To:** The Principals of Post-primary Schools and Directors of Further and Higher Education Colleges

**For circulation to:** Head of Geography and Examination Officers

---

## Entry Level Geography

### New Support Materials

We are delighted to announce the launch of new resources to support the delivery of our Entry Level Geography specification.

We have developed a series of Fact Files covering the eight units that make up the specification. Each Fact File includes relevant content and is illustrated with related diagrams and photographs. In addition each Fact File provides sample learning activities. A list of relevant resources including textbooks and useful web sites is also included.

The following Fact Files are currently available to download from [www.ccea.org.uk/geography](http://www.ccea.org.uk/geography):

- Changeable weather
- Population
- Settlement
- Development Issues
- Managing Resources.

The following Fact Files will follow shortly:

- Earthquakes and volcanoes
- Rivers and flooding
- Coasts.

The content for each Fact File is based on the assessment criteria for Entry Level 3. Teachers may choose to use this material or to amend it to suit the needs of their learners.
