

Rewarding Learning

Circular S/IF/20/24

February 2024

To: Post Primary School Principals and Directors of Further & Higher Education

For circulation to: Examinations Officer and Head of Technology & Design / Construction

GCE/GCSE Technology & Design and GCSE Construction

Change to Process for Provision of Exemplar

This circular is to provide further information to Principals, Examinations Officers, and Heads of Technology & Design / Construction departments of the following change for the Summer 2024 series:

Provision of Exemplar

Centres will be required to upload work selected as RMA exemplar for GCE and GCSE Technology & Design and GCSE Construction to CCEA's eSubmission application using photographic evidence. Centres will no longer be required to make their work available for collection.

Instructions on how to use eSubmission for this purpose, and information on what evidence should be provided will be available on the Technology & Design and Construction areas of the CCEA website closer to the summer.

Please note that the facility to upload evidence relates to RMA exemplar only. If work is selected for use at Agreement Trials a separate process is in place.

If you have any queries regarding the content of this circular please contact:
