Foreword

This booklet outlines the performance of candidates in all aspects of this specification for the November 2021 series.

CCEA hopes that the Chief Examiner's and/or Principal Moderator's report(s) will be viewed as a helpful and constructive medium to further support teachers and the learning process.

This booklet forms part of the suite of support materials for the specification. Further materials are available from the specification's microsite on our website at www.ccea.org.uk.

Principal Moderator's Report

Internal Assessment Overview

There was only one centre submitted for this November moderation.

Unit Overview

Computer Aided Design CAD

This unit was taken by only one centre in this November moderation window. All practical tasks were accurately assessed based on the CAD drawings produced. The marks awarded for the overall portfolios were accurate and in line with the specification guidelines. There was a good range of questioning techniques used in AO1 with the use of short answer questions combined with questions which required extended answers. This allowed for differentiation. In AO2 the drawings produced were of a good standard and clearly met the specifications. The evaluations in AO3 were of a good standard and appropriately marked similar to previous moderations.
