

**LEVEL 3 CERTIFICATE IN PERSONAL
EFFECTIVENESS**

Foreword

This booklet outlines the performance of candidates in all aspects of CCEA's Level 3 Certificate in Personal Effectiveness for this series.

CCEA hopes that the Chief Examiner's and/or Principal Moderator's report(s) will be viewed as a helpful and constructive medium to further support teachers and the learning process.

This booklet forms part of the suite of support materials for the specification. Further materials are available from the specification's microsite on our website at www.ccea.org.uk

Contents

Assessment Unit 1: Introduction to Working with Others (in a team)	3
Assessment Unit 2: Introduction to Improving Own Learning and Performance	3
Assessment Unit 3: Introduction to Problem Solving	3
Assessment Unit 4: Planning and Carrying out a Piece of Research	4
Assessment Unit 5: Communicating through Discussion (in a group)	4
Assessment Unit 6: Planning and Giving an Oral Presentation	4
Contact details	5

LEVEL 3 CERTIFICATE IN PERSONAL EFFECTIVENESS

Principal Moderator's Report

General Remarks

- The majority of candidates presented well organised portfolios which demonstrated the acquisition of Level 3 skills; however there are still some centres where candidates' Plan, Do and Review sheets lack detail.

Assessment Unit 1 Introduction to Working with Others (in a team)

- The majority of candidates carried out a Challenge relating to either the Active Citizenship Module or Work Related Activities Module.
- Candidates should also include a detailed account of how the group decided who should have which role and why the group decided that they should have their particular role or responsibility.
- It is important that the candidate's role in the team is clearly demonstrated both in the action plan and any additional evidence; if an Activity Log is included it should be personal.
- When reviewing their 'working with others' it is important that candidates focus on the skill not the challenge and also that they review their own contribution to the work of the team.
- Many candidates made good use of additional evidence including a log of activity, witness statements, minutes of meetings, photographs etc; however only additional evidence which demonstrates the candidate's work in the team should be included.

Assessment Unit 2 Introduction to Improving Own Learning and Performance

- Enrichment Activities were used by most candidates to provide evidence for the standards outlined in this unit; however it is important that they set three SMART targets; this will assist candidates in reviewing their progress.
- It is important in this unit that candidates focus on their learning i.e. what they have learnt, how they have learnt it and how they can improve their learning/performance in the future.
- Many candidates failed to provide evidence of seeking feedback and support to help meet his/her targets; this feedback should be sought at least twice and clearly demonstrated in the additional evidence.
- Learning Logs witnessed by tutors/instructors, certificates of achievement etc submitted by candidates provided relevant supporting evidence of their learning.

Assessment Unit 3 Introduction to Problem Solving

- The majority of candidates carried out a Challenge relating to the Career Planning Module. However it is important to remember that at Level 3 candidates are required

to solve a complex problem i.e. the problem should have a number of sub-problems with several ways of tackling it as this allows candidates to use a variety of methods and compare possible approaches to solving the problem.

- Many centres are still misinterpreting Standard PS3.1.2
“Select and use a variety of methods to come up with different ways of tackling the problem”
In their evidence candidates tend to list possible methods for solving the problem, which they replicate in PS3.1.3, rather than how they will determine these methods.
- In many Centres this Unit was combined with Unit 4; therefore it is important that candidates not only annotate their research to indicate which information/data is relevant to the research objectives but also state how it has assisted them in solving the problem.
- Many candidates stated how they would use support and feedback and how and when they would check their progress but there was little, if any, evidence of them having done so.
- When evaluating each stage of their approach to problem solving it is essential that they explain what went well and what could be improved; reasons should also be included.
- It is important in this unit that candidates clearly demonstrate how they went about solving their problem not just the final solution.

Assessment Unit 4 Planning and Carrying out a Piece of Research

- Candidates provided evidence which demonstrated they had considered a wide variety of sources when researching their information; however many candidates drew conclusions without justifying them e.g. Why are the courses and universities chosen suitable for them?

Assessment Unit 5 Communicating through Discussion

- Good evidence was provided by candidates of participating in a discussion with three or more people. However deciding on which product to sell in their mini-company or which charity to raise money for does not constitute a complex discussion.
- Additional evidence should include a summary of relevant information/notes showing how the candidate prepared for the discussion.

Assessment Unit 6 Planning and Giving an Oral Presentation

- The majority of candidates made good use of PowerPoint to meet the standards required for this Unit. However speaker notes were not always included; these are mandatory and contribute to the evidence that the presentation lasted eight minutes.
- Most evidence demonstrated the use of relevant images e.g. graphs, photographs, diagrams etc; however these must be referred to as the images should be used to illustrate points made during the presentation.

Contact details

The following information provides contact details for key staff members:

- Specification Support Officer: Joan Jennings
(telephone: (028) 9026 1200, extension: 2552, email: jjennings@ccea.org.uk)
- Officer with Subject Responsibility: Crea McCormick
