TASK

Carry out an investigation of service provision in relation to *people with physical disabilities or illnesses*. Your investigation should address the following:

- How policies can help to ensure appropriate standards of care for people with physical disabilities or illnesses living in residential settings
- The reasons which explain the demographic increase in Northern Ireland of people with physical disabilities or illnesses
- An evaluation of voluntary providers delivering care for people with physical disabilities or illnesses
- The challenges facing informal carers in providing care and support to people with physical disabilities or illnesses
- Funding voluntary providers
- The needs of people with physical disabilities or illnesses and how these might be met by informal carers
- Barriers to accessing care and treatment for people with physical disabilities or illnesses
- An in-depth understanding of the impact of rationing decisions on service users and on their families
- An understanding of the roles of practitioners involved in providing care and support for people with physical disabilities or illnesses
- An understanding of the role of the Patient and Client Council (PCC) in quality assurance
- An understanding of how inspections can contribute to improving the quality of care and of the role of the Regulation and Quality Improvement Authority (RQIA) who carry out the inspections
- An understanding of how the Nursing and Midwifery Council (NMC) implements its regulatory role

1	topi In 2 long other thos	alth Survey Northern Ireland is a Department of Health survey that is every year on a continuous basis. The survey covers a range of health is that are important to the lives of people in Northern Ireland today. 1016/2017 42% of respondents interviewed for this survey reported a gestanding illness, almost half (48%) said they had received help from the family members to meet their health and social care needs and 3% is surveyed had made a complaint about their care or treatment. 1	of	Examiner Only Marks Rema

(c)	The delivery of high quality care for people with physical disabilities or illnesses is dependent upon a range of factors including adherence by staff to organisational policies and procedures and to their respective codes of practice. Failure to adhere carries the risk of disciplinary action by regulatory bodies such as the Nursing and Midwifery Council (NMC) and by employers.	er Only Remark
	Discuss how the following policies should protect service users with physical disabilities or illnesses living in a residential care setting.
