Tasks for Speaking and Listening Moderation

These tasks must not be used for formative assessment for this series.

[GEN21]

SUMMER 2024

- 1 A clean energy company has applied to the council to build a wind farm in a local Area of Outstanding Natural Beauty. A public meeting will be held to discuss whether permission should be granted.

You should present the views of the following:

- the CEO of the clean energy company
- a representative from Tourism NI
- a local farmer
- an environmentalist
- a representative from the residents' opposition group
- a local councillor

- 2 Should we trust Artificial Intelligence?

You may like to consider the potential impact of Artificial Intelligence in the following areas:

- education
- the home
- medicine
- entertainment
- national security

- 3 "It's time that the 'A' in STEAM was given the spotlight."
To what extent does your group agree that society places too much emphasis on STEM to the detriment of the Arts?

- 4 Addictions are having a devastating impact on many aspects of our society. How can we break this habit?

- 5 The Olympic Games have become an extravagance and are no longer a celebration of sporting excellence. Discuss.
