## **Agriculture and Land Use**

### **Controlled Assessment Tasks**

#### **Unit 3: Controlled Assessment – Contemporary Issues in Agriculture and Land Use**

**[GAL31]**

**VALID FROM SEPTEMBER 2018 – MAY 2020**

---

#### **INSTRUCTIONS TO CANDIDATES**

Candidates are required to complete **two** controlled assessment tasks:

- a **practical investigation** (task 1); and
- a **research project** (task 2).

You can choose any one of the 3 titles listed for task 1 and any one of the 3 titles listed for task 2.

The titles listed are for submission in **May 2020** only.

#### **INFORMATION FOR CANDIDATES**

This unit carries a weighting of **60%** for Agriculture and Land Use.

The total mark of this unit is **180**; 60 marks for task 1 and 120 marks for task 2.

No more than 45 hours in total should be spent on the controlled assessment tasks.

**Candidates' work to be submitted May 2020**

Controlled Assessment Tasks must comply with the Regulations as detailed in the Subject Specification.

NB: Some Controlled Assessment Tasks instructions may constitute more than 1 page.

Please check you have all the information you need to complete the task if printing from a computer.

## Task 1

Candidates are required to carry out a practical investigation relating to one of the titles given below. The investigation provides candidates with the opportunity to apply their skills, knowledge and understanding, including that gained in Units 1 and 2 of the specification.

For Task 1, candidates:

- plan an investigation and develop a risk assessment;
- carry out an investigation; and
- present a report.

The word limit is 2000 words maximum. Headings to be used in laying out the report and learning outcomes which make up this task are given in the specification, section 3.3.

<b>Titles for Task 1: Practical Investigation</b>
Investigate the effect of soil type on crop production.
Investigate how protected cultivation affects crop growth.
Investigate preservation methods on food quality.

## Task 2

Candidates research a contemporary issue in Agriculture and Land Use using one of the titles given below. The research will provide candidates with opportunities to apply the knowledge and understanding gained in Unit 1 and Unit 2 to a realistic context.

For Task 2, candidates:

- plan research into a contemporary issue in Agriculture and Land Use;
- carry out research using primary and secondary sources; and
- present a report.

The word limit is 3000 words maximum. Headings to be used in laying out the report and learning outcomes which make up this task are given in the specification, section 3.3.

<b>Titles for Task 2: Research Project</b>
Investigate the choice of farm type in a certain locality of Northern Ireland.
Research the use of alternative energy to produce electricity on farms.
Research and compare costs associated with growing spring and winter crops.

Candidates' work to be submitted <b>May 2020</b>
