

Entry Level Science Specification Addendum

Exceptional Assessment Adaptations (for 2021–2022)

This addendum should be used in conjunction with the current specification

The table below shows the units available for March 2022 and details where applicable:

- any temporary adaptations that have been made due to public health restrictions; and
- the reduced number of units CCEA will require for moderation.

Please note: This applies only to candidates cashing-in at qualification level in March 2022

Assessment Arrangements for candidates completing in 2022

1. For candidates wishing to cash-in for an Entry Level qualification in March 2022, centres can choose to **omit up to three units** of their choice up to a maximum of 60 GLH:
 - Centre delivers the specification for six units, as detailed in the specification. This may include work completed prior to 2021-22.
 - Centres may choose to omit one, two or three units of their choice from assessment and assess candidates only on the remaining units.
 - Centre enters candidates for only the units they will be assessed on.
 - Units that have been previously awarded at unit level without a cash-in at qualification level will count towards the number of units required for cash-in at qualification level in March 2022.

2. Unit level awards will still be available and moderated in the normal way.
