

Space Science Technology Level 2 Specification Addendum

Exceptional Assessment Adaptations (for 2020–2021)

This addendum should be used in conjunction with the current specification

Please note: This applies only to candidates cashing-in at qualification level in Summer 2021

1. No temporary adaptations have been made to this specification due to public health restrictions for Summer 2021.
2. For candidates who hope to achieve a Level 2 qualification in Summer 2021, CCEA will require a reduced number of units for moderation as follows:
 - Centre delivers, enters and submits levels for 6 units as detailed in the specification. This may include work completed prior to 2020-21.
 - CCEA will moderate **3 units of these units: 2 mandatory and 1 optional** selected by the centre at the time of moderation.
 - Units that have been previously awarded at unit level without a cash-in at qualification level will count towards the number of units required for moderation in Summer 2021.
 - The Level 2 Certificate qualification will be based on all 6 units.
3. Unit level awards will still be available and moderated in the normal way.
