Please note:

The *Uniform Mark boundaries* will not change for the lifetime of this specification whereas the *Raw Mark boundaries* will be set independently in each examination series.

If you are planning to use the Raw Mark boundaries to estimate future performance and grades they must be used with caution as they are prone to change each series.

The A* grade is not awarded for individual units - it is only awarded at subject level.

A* is now a derived grade set independently in each examination series. If you are planning to use the A* boundary from this series to estimate future A* boundaries it must be used with caution as it is prone to change.
