Unit Level UMS boundaries are stable for the lifetime of the specification and do not change. However, the Raw Mark boundaries are set independently in each examination series.

If you are planning to use these Raw Mark boundaries to estimate future performance and grades, they must be used with caution, as they change each series.

Candidates cashing-in for the first time in Summer 2023 will be graded on all their performance across all units with the Standard Grading subject level boundaries applied.

Alternative Grading is only applicable to candidates retaking the qualification having previously cashed-in during the 2021/22 academic year.

Alternative Grading candidates will be awarded the best grade based on their performance across all units or in mandatory unit only GHR1.

Subject Level Uniform Mark boundaries (grades A to G) carry the same % weighting across both Grading Routes: i.e. A 80%, B 73%, C* 67%, C 60%, D 50%, E 40%, F 30% and G 20%.

A* is only awarded at subject level and the A* boundary is set independently in each examination series. The A* UMS % weighting will be applied equally to both Grading Routes.
