

Practice

- Try and experience as much German as possible – read lots of different texts wherever and whenever you can, e.g. newspapers, magazines, children's books or find websites in German for any topics that interest you. Ask your teacher for ideas and suggestions if you are not sure where to start.
- Complete as many different past papers as possible to familiarise yourself with the style of questioning.
- Always read **all** questions very carefully before you start and make sure you know what language you need to answer in.
- Attempt all questions and do not leave any blank spaces.
