### Learning Outcomes

You should be able to:

- communicate and interact effectively in speech for a variety of purposes;
- take part in short conversations, asking and answering questions, exchanging opinions and producing extended sequences of speech;
- speak spontaneously, responding to questions, points of view or situations and sustaining communication, as appropriate;
- express information and narrate events coherently and confidently, using and adapting language for new purposes;

- Make sure you have opinions and are able to express them and give reasons.
