

Rewarding Learning

Home Economics:
GCSE
Child Development

STUDENT
GUIDE

INTRODUCTION

The GCSE Home Economics: Child Development course will give you opportunities to learn about the important considerations when having a family and caring for a small baby. You will also learn about the developmental needs of young children (aged 0–5 years) and how to look after their health and well-being.

WHY STUDY CHILD DEVELOPMENT?

You will gain knowledge and understanding of:

- pregnancy, childbirth and parenting;
- how to care for newborn babies;
- how to meet the needs of small children (aged 0-5 years) – for example dietary, health and educational considerations; and
- the social, physical, intellectual, communication and emotional development of small children.

You will be able to demonstrate your knowledge and understanding in the examinations and the investigation task.

WHAT WILL I STUDY?

UNIT ASSESSMENT	AREAS OF STUDY
Unit 1: Parenthood, Pregnancy and the Newborn Baby	You will study: <ul style="list-style-type: none"> • the family and parenting responsibilities; • reproduction; • pregnancy; • diet and lifestyle during pregnancy; • birth; • the newborn baby; and • feeding the newborn baby.

WHAT CROSS-CURRICULAR SKILLS, THINKING SKILLS AND PERSONAL CAPABILITIES WILL I DEVELOP?

CROSS-CURRICULAR SKILLS AT KEY STAGE 4 COMMUNICATION, USING MATHEMATICS AND USING ICT

You will have opportunities to develop these skills in a variety of ways, for example:

- discussing the importance of immunisation;
- responding to exam questions;
- evaluating and debating the feeding options for a baby;
- interpreting information on food labels;
- recording bathwater temperature and body temperature;
- calculating estimated delivery date;
- understanding centile charts; and
- researching and accessing information online for the controlled assessment task.

THINKING SKILLS AND PERSONAL CAPABILITIES AT KEY STAGE 4 SELF-MANAGEMENT, WORKING WITH OTHERS AND PROBLEM SOLVING

You will be encouraged to:

- manage your own time and work outcomes;
- work with others on a range of activities; and
- explore, analyse, evaluate and justify decisions.

WHAT CAN I DO WITH A QUALIFICATION IN CHILD DEVELOPMENT?

You will develop the knowledge, understanding and skills (including practical skills) required for working in the area of child development. The course also prepares you for progression to further study of child development or other related qualifications.

You will also acquire knowledge, understanding and skills that are valuable to you in your adult life.
