

Why Going to School can be Good for Us

We can play
with our friends
and talk to
them

After-school
clubs are good fun

We learn to read
and write

We learn more
about the world

We won't get
a good job if
we have no
education

We'd get bored
at home all day

The school
computers are
better than the
ones at home

If we stayed at
home we'd have
to help with the
housework

We mix with
people who
are different
from us
