

**Role Cards****A Child Worker**

I get tired working in the factory but I like to help my family by earning money.  
Buy the cheap shirt.

**Another Child Worker**

I'd like to be able to leave the factory and attend school full time. A good education would help me get a better job. Don't buy the cheap shirt and maybe the factory will go out of business.

**Child Worker's Mum (or Dad)**

I'm so sorry that my son/daughter has to work such long hours, but we are very poor. We need the money just to survive. Buy the cheap shirt.

**Your Friend**

If you buy the cheaper shirt you'll have enough money to go ten pin bowling with me later. Buy the cheap shirt.

**Fair Trade Supporter**

By buying the cheaper shirt you're helping to keep prices low and that keeps child labourers and their families poor. Join a campaign for Fair Trade. Don't buy the cheap shirt.

**Older Friend**

What difference does one T-shirt make? If you don't buy it that won't change anything much for child labourers. Try to think of better ways to help them. Does that mean you should now buy the shirt or not?
