

Resource 7 (Activity 3) Influences On Me

Magazines, soap operas, advertisements, pop/rock/rap/heavy metal groups, all influence me. Look at these comments and discuss them:

There are too many adverts in magazines, they take up too much space and they're always the same.

I enjoy rap music, but I don't always agree with the ideas expressed.

Girls like teenage magazines but boys prefer magazines about computer games, cars, sport etc.

I enjoy soap operas. I think they're very true to life.

I like the problem page in magazines. I read them to see if other people have the same problems as me.

Soap operas are just entertainment. They are not relevant to my life but I enjoy them.

I love television adverts. They are often the most entertaining thing on the television.

It's important to me that I wear clothes and shoes that are in fashion.
