

Key Stage 3 Using ICT

Pupil Cover Sheet: 3D CAD

Scenario

Software

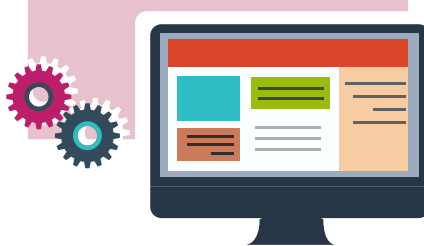

PLAN

Look at relevant examples of 3D products and identify what makes them effective. Use what you find to help you plan your own 3D product design.

DO

With your plan as a guide, use the software tools and features to develop your ideas and create your 3D product design.

REVIEW

Reflect on your work. Consider how well your 3D product design fits with your plan and how you could improve your use of ICT.
