

# Key Stage 3 Using ICT

## Pupil Cover Sheet: Data Handling

### Scenario

### Software

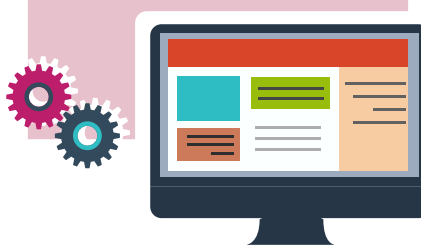

### PLAN

Look at relevant examples of databases and identify what makes them effective. Use what you find to help you plan your own database.

### DO

With your plan as a guide, use the software tools and features to develop your ideas and create your database.

### REVIEW

Reflect on your work. Consider how well your database fits with your plan and how you could improve your use of ICT.
