

Key Stage 3 Using ICT

Pupil Cover Sheet: Online Collaboration

Scenario

Software

PLAN

Look at examples of wikis and identify what makes them effective. Allocate roles and sub-topics to each member of the group to research. Use what you find to help you plan your own wiki, based on a topic you have been learning about in class.

DO

With your plan as a guide, use the software tools and features to develop your ideas and create your wiki.

REVIEW

Reflect on your work. Consider how well your wiki fits with your plan and how you could improve your use of ICT.
