

Modular GCSE - Unit Weightings 2024/25

Terminal Rule for Modular GCSE specifications:

At least 40% of the assessment must be taken in the examination series in which the qualification is certificated.

This means that students must complete their course by taking units that make up at least 40% of the weighting for the whole qualification. The results for the units that satisfy this terminal requirement will count (i.e. they will be used to calculate the grade), even if there is a better score for an earlier attempt at one or more of these units.
