Unit Level UMS boundaries are stable for the lifetime of the specification and do not change. However, the Raw Mark boundaries are set independently in each examination series.

If you are planning to use these Raw Mark boundaries to estimate future performance and grades, they must be used with caution, as they change each series.

Subject Level UMS boundaries for grades A to G are stable for the lifetime of the specification and do not change. A\* is only awarded at Subject Level and the A\* UMS boundary is set independently in each examination series.
