

Response to the QCA monitoring activity.

Since achieving QCA recognition in June 2004, BSC Awards has developed and gained accreditation for a suite of qualifications from Levels 1 to 6 in the National Qualifications Framework, all with quite different administrative arrangements and assessment structures.

BSC Awards has worked hard to develop systems and procedures that meet the requirements of the regulatory authorities. We are delighted with the QCA report as it sends out a clear signal of our determination to do things properly, particularly in key areas such as quality assurance and control of assessment, and determination and reporting of results.

BSC Awards will work with QCA to address the four minor areas of non-compliance in a timely manner.
