

## **CYQ Response to Ofqual Post Recognition Monitoring Report**

CYQ is a specialist Awarding Organisation for the Active Leisure Sector, with a portfolio of qualifications ranging from Level 1 to Level 4.

This was the first post recognition monitoring activity in respect of the Qualifications and Credit Framework (QCF) since we received supplementary recognition in 2009.

We found it extremely valuable to receive feedback on our practice in relation to QCF unit development and awarding activity, and we were very pleased to have only one area of non-compliance identified as a result of the audit.

The Ofqual report highlighted areas of good practice and we welcome the constructive feedback that we received from the monitoring team; we are further developing our existing practice as a result of the recommendations that were made.

CYQ consistently strives to improve our awarding function and in the new atmosphere of self regulation we will continue to aim for high standards commensurate with our strong reputation in the industry.
