

LAMDA Examinations welcomes the opportunity to respond to the report produced by Ofqual following the monitoring of our qualifications. LAMDA Examinations would like to take this opportunity to thank the monitoring team for the efficient and comprehensive way they planned and undertook the monitoring exercise. It is encouraging for LAMDA Examinations and our centres and learners to know that the policies and procedures we employ meet the standards required and in some cases exceed them. It is also beneficial to receive assurances from Ofqual that LAMDA Examinations carries out its duties in a responsible and professional manner.

LAMDA Examinations is continuously improving our products and services and aims to deliver the highest quality to its customers. To support this programme of continuous improvement LAMDA Examinations has already actioned the observation points contained within the Ofqual report and have put in place a schedule to address the one non compliance point.

LAMDA Examinations appreciates the feedback from the monitoring report and recognises how it can help us continue developing high quality qualifications that are relevant to our markets worldwide.
